

BSN GPA Requirements and Calculations

Traditional BSN and AS-BS require a 3.0 Overall GPA to be eligible for admission.
RN-BSN require a 2.8 Overall GPA to be eligible for admission.

Examples of GPA's below a 3.0

2.8 GPA with 60 credit hours attempted would need 12 hours of A's to reach a 3.0

2.8 GPA with 90 credit hours attempted would need 18 hours of A's to reach a 3.0

2.8 GPA with 120 credit hours attempted would need 24 hours of A's to reach a 3.0

2.5 GPA with 60 credit hours attempted would need 30 hours of A's to reach a 3.0

2.5 GPA with 90 credit hours attempted would need 45 hours of A's to reach a 3.0

2.5 GPA with 120 credit hours attempted would need 60 hours of A's to reach a 3.0

To find your overall GPA:

1) _____ quality points / _____ hours attempted = _____ Overall GPA

If overall GPA is below a 3.0, to find out what you need to get a 3.0, use the following:

2) _____ hours attempted X (3.0) = _____ quality points needed to reach minimum GPA

3) _____ quality points needed to reach minimum GPA - _____ quality points = _____ number of quality points deficient

4) _____ number of quality points deficient = _____ number of hours with a grade of as needed

After reviewing the transcripts provided, it was determined that your Overall GPA is approximately _____

In order to reach the minimum GPA requirement of _____ you would need to take _____ hours of credit and earn A's.
