What campus would you like to attend?

**WARNING:** The campus location that you select will affect the majors that are displayed. Some majors are only offered at certain campus locations. If the major that you want is not displayed, you must choose a different campus location in order to complete that major.

If you select 'UCF Online-Only' as a location, the majors lists are offered entirely online. While these programs can be completed online, not all elective options or program prerequisites may be offered online. New students choosing to complete these programs exclusively via UCF Online classes may enroll with a reduction in campus-based fees; however, students will not be permitted to take any on-campus courses and will not have access to some on-campus student resources. Visit [UCF Online](#) for more information before selecting this option.

If you are not planning to complete this program as an online-only student, please select another campus location for the major offerings at that location.
