CRIMINAL BACKGROUND POLICY SSC uses community healthcare facilities to meet the clinical component of each nursing course. We have an agreement with those clinical partners that indicates that applicants must be free of offenses that could potentially disqualify them from working in a healthcare environment. The clinical facilities require any student with a positive background (arrested in any state) to be cleared by the clinical facilities. The approval for clinical attendance is at the discretion of the various clinical agencies.	

○ Students that do not have a criminal background: After being provisionally admitted to the program the student will be required to order a SSC approved criminal background check. ○ Students that have a criminal background: Students must contact the Coordinator of Healthcare Programs (nursingclearance@seminolestate.edu) to initiate a background clearance. This process can take 3+ months. ○ The student must be pre-cleared by the Coordinator of Healthcare Programs and submit a signed clinical clearance form the same day the nursing application is submitted to nursing@seminolestate.edu. Nursing applications without the form will not be processed.
